About Acres of Hope

Acres of Hope is a place of hope for homeless women with children who have a sincere desire to turn their lives around. The heart of our program will center on the special needs of the children to ensure a positive change that transfers to future generations. Our unique approach addresses the wholeness of each person in the family by considering their spiritual, physical and emotional needs.

Acres of Hope understands how integral each component is to each other. Without a long-term, balanced focus on each area, it is only a matter of time before negative thought patterns and habits rise to the surface and reverse progress made.

Homelessness is degrading and erodes self-confidence and often follows years (if not a lifetime) of hurts and negative messages. Therefore, programming that is undergirded with biblical truths and principles will provide practical skills, restore confidence and show residents their unique God-given purpose in life. Residents will be challenged to face the issues that keep them from moving forward and securing the future they are meant to have.

Improving relational, coping and basic life skills will be reinforced throughout the resident's stay at Acres, which could be up to two years. Laying a strong foundation of relational and life skills is critical to the success of each resident. Special emphasis on job readiness will be introduced during the latter part of their individualized program.

Acres of Hope will address the various components leading to homelessness by thoroughly assessing the dynamics of each family unit, providing a loving environment that is balanced with accountability, and offering classes and learning opportunities in the following areas:

- Emotional Stability
- Children's Programming and Family Enrichment
- Connection to Community Services
- Education
- Life Skills
- Substance Abuse
- Mental Health and Medical Services
- Job Readiness
- Aftercare
- Parenting
- Relapse Prevention

The vision of Acres of Hope is to provide a safe family environment and a healthy living program for women with children that sets the foundation of change and breaks the cycle of homelessness.

The mission of Acres of Hope is to improve the physical, emotional, social, economic and spiritual quality of life for homeless women and their children. We accomplish this by identifying and replacing faulty belief systems that drive destructive behaviors with biblically based truths and the implementation of healthy life skills.

Our Core Values

- ❖ We value the unique purpose that God has planned for every person.
- ❖ We value healthy relationships with God, self and others.
- ❖ We value relationships that provide mutual support and accountability without judgment.
- ❖ We value a safe environment that promotes personal authenticity.
- ❖ We value continued growth in all stages of life.

Admission to Acres of Hope

The success of Acres of Hope depends upon strong community support and partnerships. We consider our program to be an extension of the many services already available to the homeless community. Residents come to Acres of Hope through both an application and a referral process. Candidates may be referred by churches, government agencies, schools, doctors, counselors and other community service agencies.

Who is a good candidate for admission into Acres of Hope?

1. **Homeless** – Applicants must be homeless, facing homelessness or exiting a homeless service program.
2. **Referrals** – Acres of Hope invests heavily in our residents. As good stewards of our resources, we seek applicants who have demonstrated a sincere desire to address the obstacles that caused their homelessness. Referrals serve as a testimony to the applicant's willingness and capability to be successful in the Acres of Hope program. Referral forms cannot come from family members or close personal friends.
3. **Length of stay** – Residents will live at Acres of Hope for up to two years.
4. **Cost** – Residents do not pay rent to reside at Acres (unless their source of aid requires it), but there is a small monthly program fee. This fee is on a sliding scale for those that have little income and is waived for families that have no income or aid.
5. **Drug, alcohol and tobacco free** – Residents must be drug and alcohol free for a minimum of three months prior to admission. We are a tobacco free environment; residents cannot smoke once they enter the program. However, they can wear patches for up to six weeks after entry.
6. **Women with children** – Acres of Hope is for single women with children up to age 10 (so that children graduate the program with their mom prior to the age of entering high school)

What is expected of the referring church, agency or individual?

1. Referent must be well enough associated with the applicant to be able to confirm the applicant's commitment to a program such as what we offer at Acres of Hope. Referent should know the applicant for at least six months.
2. Referent must complete the Reference Form. Please be honest and forthright. Information provided on this form does not preclude the applicant from gaining admission, but rather provides information to help develop an individual family plan upon admission.
3. Referent should not share the information provided on the Reference Form with the applicant, but return the form directly to Acres of Hope.
4. Referent should encourage the applicant to answer all questions on the application to ensure proper evaluation.
5. Referent should be willing to assist the applicant in obtaining documents required for admission (see Instruction page).
6. Referent should not be a family member or a close personal friend.
